General Notes	Annual review services engine and antifouling. Last May 2016, ready to sail. The model is an Alekstar-38 Kompan Marine shipyard and engineer Alex Morozov made in St. Petersburg (Russia) in 2008. The previous owners bought the boat in 2012 and carried out a reform of rudders and keel length shipyard O of Burriana in 2014, modifying the wheelhouse drums for a hung outside the transom. He also outlined and laminated keel. The Alekstar-38 is a fast cruiser with monolithic structure as the main structural features include: • Bulb keel with lifting hydraulics (draft passes of 3.00 meters. A 1.80 mts). • Hydraulic system orientation keel 6 degrees per band managed from the control room by a wheel orientation on each band. • Ballasts with capacity of 400 liters per band filling system, transfer and emptied located in morse command post, with electronic controls that indicate the liters that is in the ballast. Refit done in 2017
