**BROKER'S COMMENT:** optimised Lagoon 560 catamaran that combines advanced engineering with thoughtful design

DESCRIPTION:

Discover the ultimate offshore sailing experience with Kay Tee 2,a meticulously optimised Lagoon 560 catamaran designed for sailors seeking reliability, comfort, and performance. This exceptional vessel combines advanced engineering with thoughtful design, ensuring effortless navigation and long-distance cruising in unparalleled style. Spanning 17.07 metres with a 9.45-metre beam, Kay Tee 2 offers a spacious and modern design by VPLP, paired with durable fibreglass construction for strength and agility. Her shallow 1.5-metre draft provides access to anchorages that other vessels can only dream of, making her the perfect choice for both coastal and offshore adventures. With premium finishes, comprehensive safety equipment, and thoughtful enhancements throughout, Kay Tee 2 is a turnkey vessel ready for your next sea adventure. Whether you're island-hopping or embarking on offshore passages, this Lagoon 560 guarantees a sailing experience defined by comfort, reliability, and style. Her luxurious interior boasts four queen cabins, each with en-suite bathrooms featuring electric toilets and separate showers, alongside a fully equipped galley with modern appliances. Additional amenities include air-conditioning, a washing machine, and ample storage, delivering a true home-away-from-home experience. The port forepeak offers a crew cabin with head and shower, while the starboard forepeak serves as a workshop.

DESIGN

Builder:	Lagoon Catamarans
Designer:	VPLP
Design Notes:	Designed for sailors seeking reliability, comfort, and performance. This exceptional vessel combines advanced engineering with thoughtful design, ensuring effortless navigation and long-distance cruising in unparalleled style.

DIMENSIONS

LOA:	17.07 m
Beam:	9.45 m
Draft:	1.50 m
Displacement:	30300 kg

ENGINES

Engines:	2 Yanmar 110 Hp
Notes:	Powered by twin Yanmar 110hp engines with less than 500 hours, Kay Tee 2 delivers outstanding fuel efficiency at just 8L/h per engine. A re-engineered electrical system features a 1700Ah lithium battery bank, 3.6kW of solar power, a 17kVA generator, and 21kW of inverter power, ensuring silent, efficient operation and exceptional autonomy at sea. The

2021/2022 EPLEX CAN-BUS system provides centralised, user-friendly control of all electrical and navigation systems.

## TANKS

---
