DESIGN

Builder:	BENETEAU
Designer:	Samuel Manuard & Lorenzo Argento
Design Notes:	The Beneteau First 36 was designed by Samuel Manuard as naval architect and Lorenzo Argento for its aesthetic design, combining comfort and racing performance. Its construction was coordinated by Beneteau teams, employing advanced techniques that reduced its displacement to 4,400 kg, improving speed and maneuverability. It incorporates twin rudders for greater efficiency. This model represents a balance between sporty sailing and onboard comfort, being a lighter evolution of the original design.
